## Mission:

Digitale, offene, souveräne und kontrollierbare Lösungen für den Public Sektor in Europa.

*Public Money – Public Code*

# Die Ausgangslage...

von KI generiert

# Wir möchten ...

# Weitere Anforderungen...

**Aus den Workshops mit den Fachbereichen**  
entstanden folgende Anforderungen für den digitalen Arbeitsplatz.

 Wissen geht verloren.

 Zu viele Tools,  
zu viele Medienbrüche.

 Lösungen sind nicht integriert.

 Datenhoheit und Sicherheit sind entscheidend.

## Wissen nutzbar machen

Informationen finden, verknüpfen und mit KI unterstützen lassen.

## Fachverfahren integrieren

Daten und Dokumente nahtlos in bestehende Systeme übergeben.

## Kommunikation bündeln

Chat, Videokonferenz, Mail, Kalender und Kontakte integrieren.

## Dateien zentral verwalten

Dateien sicher speichern, bearbeiten und einfach teilen.

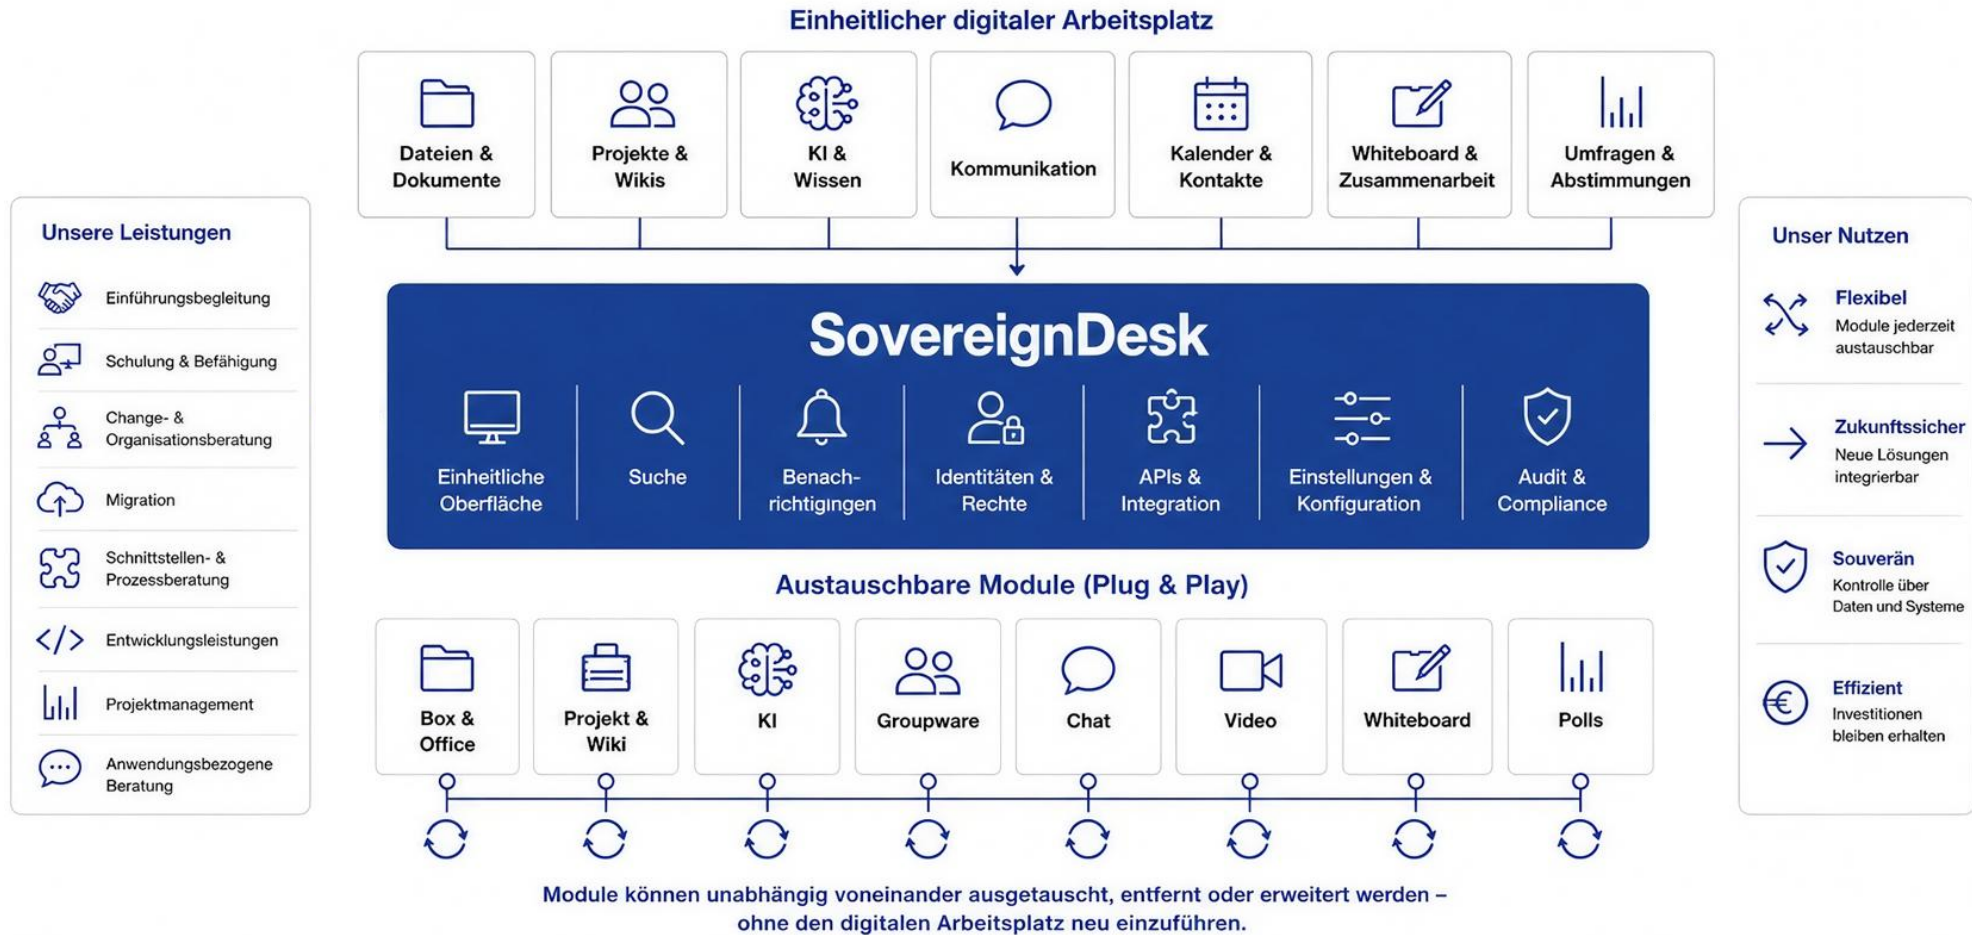

## Flexibel und modular

Nur die Module nutzen, die benötigt werden – heute und morgen.

# SovereignDesk – Integration von vorhandenen open-source-Lösungen

# KI - Wissensdatenbanken

The screenshot displays the SovereignDesk interface, which is a knowledge management and collaboration tool. The interface is divided into several sections:

- Header:** Includes the SovereignDesk logo, a search bar, and user profile information.
- Left Sidebar:** Contains navigation icons for Home, Chat, Meetings, Umfrage, Inbox, Box, Calendar, and Contacts. The 'AI assist...' icon is highlighted.
- Knowledge Management Section:** Features a search bar, a 'Create New Chat' button, and a list of chat items including 'Project plan for "SolarPath"', 'My First Project', 'Task Discussion', 'Deadline Inquiry', 'Weekly Priorities', 'Launch Planning', 'Report Preparation', 'Budget Support', 'Project Risks', 'Team Progress', and 'Resource Management'.
- AI Assistant Section:** A dropdown menu for 'AI assistant' is open, showing options for 'AI Assistant', 'AI Assistant 2.0', and 'AI Assistant 2.1'. A black arrow points to this menu. Below the menu, a chat window displays a project plan for 'SolarPath' with the following structure:
  - Project plan for "SolarPath"**
  - 1. Market Research**
    - Competitor analysis
    - User needs research
    - Demand assessment
  - 2. Design**
    - Create wireframes / UI mockups
    - UX validation
    - Define MVP features
  - 3. Testing**
    - Internal QA
    - Pilot launch in selected households
    - Bug fixes
  - 4. Support & Growth**
    - User behavior analysis
    - Add new features
    - Scale the platform

Below the plan, a text box says: "Let me know if you'd like help breaking these down into tasks, setting timelines, or building a Gantt chart or roadmap structure." A response from the AI assistant is shown in a rounded box: "I like the plan, but I suggest breaking it down into more points for better clarity. I've also added some files that might help you create a more tailored plan based on my needs." Below the response is a search bar with a 'Web search' button.

# UC-Integration

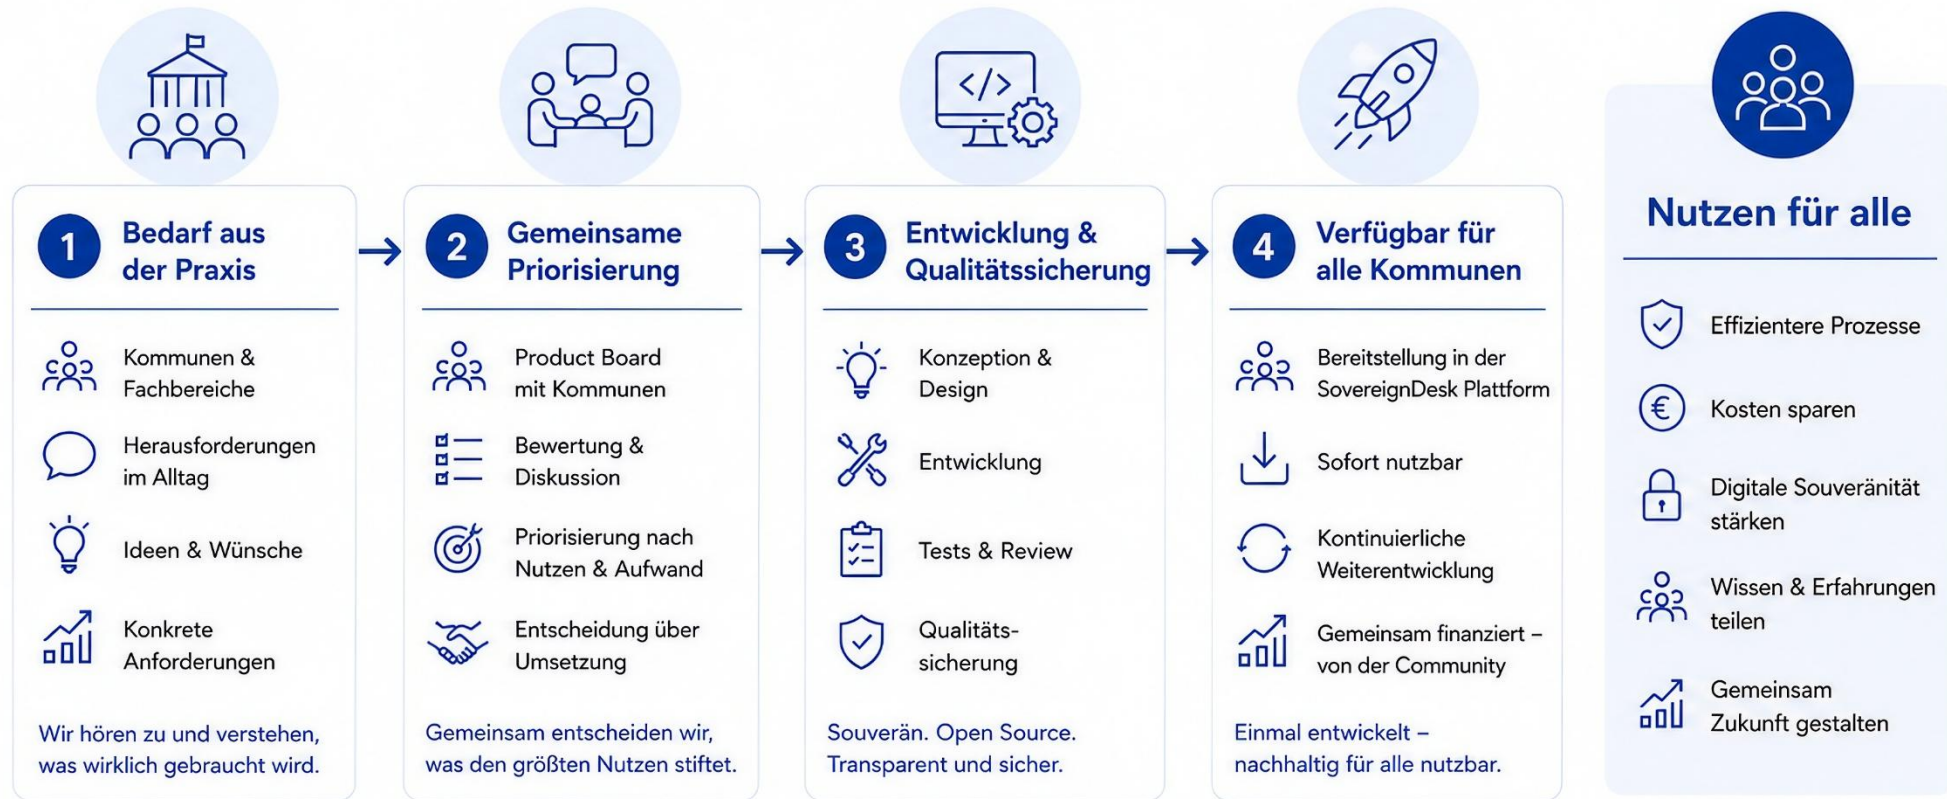

The screenshot displays the SovereignDesk user interface, which is designed for unified communications integration. The interface is organized into several key sections:

- Navigation and Search:** At the top, there is a search bar and navigation icons for Home, Team, Project Hub, Rooms, Meetings, Umfrage, Inbox, Box, Calendar, Contacts, and AI assist... The left sidebar provides a detailed view of these channels, with 'Meetings' and 'Chat' being prominent.
- Meetings Section:** The central 'Meetings' panel shows a dial pad for making calls. The dial pad includes numbers 1-9, \*, 0, and #, each with corresponding letters (e.g., 1: A, B, C; 2: ABC; 3: DEF; 4: GHI; 5: JKL; 6: MNO; 7: PQRS; 8: TUV; 9: WXYZ). A 'Call' button is located at the bottom of the dial pad.
- Calls History Section:** To the right of the dial pad is the 'Calls History' section, which lists incoming calls. The list is currently filtered to 'Entgangen' (Missed) calls. Each entry includes the caller's name, phone number, and the time of the call.

# Vom Bedarf zur Plattform - Entwicklungsprozess

Anforderungen einzelner Kommunen werden zu Funktionen für die gesamte Plattform.

Aus der Praxis für die Praxis

Nachhaltig und souverän

Gemeinsam stärker

- integriert bestehende Open-Source-Lösungen.
- schafft einen einheitlichen Arbeitsplatz.
- ist souverän und datenschutzkonform.
