Three main questions

Francesco R. Frieri

CDO, DG REII

Regione Emilia-Romagna

Generative AI

- *Applications of (generative) AI to cross-cutting processes within bureaucracy*

- *Applications of (generative) AI to public services in specific policy sectors, and especially scalability/re-usability of a same technological solution in different policy sectors*

- *Impact of generative AI on complex public organisations, including in terms of how they should be structured*
